

Kaitu 開途

— CAREERS AT KAITU

Open roads *for a living.*

Consultants, specialists and interns — hired on a rolling basis, all year.

Work that opens *someone's road*.

Kaitu 開途 guides students, families and professionals through admissions, residency and citizenship, and careers and business abroad — with one consultant from the first conversation to the first day.

途

Opening roads for families

A place at the right school, a new home, a second citizenship, a career abroad. The work changes what's possible for a family, so we do it with care.

語

International and multilingual

Our clients cross borders and languages, and so does our team. The languages you speak are part of what you bring.

遠

Remote-friendly, across time zones

Much of our work happens remotely. We plan around time zones so families — and colleagues — are looked after wherever they are.

專

One consultant, end to end

Our consultants guide each family from the first conversation to the first day. You see the whole of a plan — and the difference it makes.

師

Mentoring and growth

You learn alongside experienced colleagues, with regular feedback and room to take on more as you grow.

“The right path is the one that fits the family — not the one that sounds most impressive.”

HOW WE ADVISE, AND HOW WE HIRE

Where you could *fit*.

學

Admissions

Consultants and specialists who guide students to schools, universities and graduate programmes anywhere in the world.

居

Residency & citizenship

Specialists who guide families through residency and citizenship routes, alongside licensed legal partners.

職

Careers & business

Advisers for careers and companies across borders: strategy, CVs and interviews, work authorisation and company formation.

客

Client experience & operations

The people who keep every plan moving: scheduling, documents, the client portal and a warm welcome for every family.

文

Content, events & communications

Guides, films, webinars and events that help families understand their options before they ever talk to us.

— INTERNSHIPS

Learn the work *from the inside*.

- ◆ **Real projects.** Supervised work that matters to real families: researching schools, universities and programmes, preparing and checking documents, and drafting notes for consultants.
- ◆ **A mentor.** A member of the team who meets with you regularly, reviews your work and helps you set goals for your time with us.
- ◆ **Rotations.** Time with more than one practice — admissions, residency and citizenship, and careers and business — so you see how a whole plan fits together.
- ◆ **A pathway to full-time.** Interns who do excellent work may be considered for full-time roles through our usual process. We won't promise a future role — no one honestly can.

Four steps, *no mystery.*

01 申

Apply

Choose a role — or the general or internship application — and share your CV and a few words about why Kaitu. You'll get a private link to follow your application.

03 試

A practical exercise

A short, realistic piece of the work, so you can show how you think, write and check the details — and see what the job is really like.

02 話

A conversation

A relaxed, two-way video conversation with members of the team: your experience, how you like to work, and your questions for us.

04 迎

An offer

If it's a match, we make you an offer and talk it through with you. Then we welcome you to the team.

— APPLY ANY TIME

Open the road *for others.*

Current roles, the general application and the rolling internship application are always at kaitu.org/join. We read every application.
